OD & AD TRAVEL/SIGNIFICANT LEAVE: [REDACTED]

HOT TOPICS

This Week: Eastern Michaud Flats/FMC (near Pocatello, ID): This week EPA HQ sent the Shoshone-Bannock Tribes a draft project work plan, outline of roles and responsibilities, and a draft work order for Argonne National Labs to re-initiate discussions on the Independent Review of soil excavation and treatment technologies at the FMC Operable Unit. The project work plan calls for a face-to-face meeting in March and a site visit in April to include EPA, the Tribes, and Argonne.
